7. In your view, what are the five most salient factors that affected the outcome of the election (e.g. major scandals; economic events; the presence of an independent actor; specific issues)? Rank them according to their salience (1 = most salient).

1. **Revolt of the middle class against the administration of Pres. Nonoy Aquino** – The win of Rody Duterte despite his late entry in the presidential race exemplified the anger of the middle class against the administration of Pres. Noynoy Aquino. Despite the economic success of the Aquino administration, the middle class felt that they suffered most from the lack of public services, unfulfilled promises and break down of peace and order. They see that the poor have their own targeted economic program (Conditional Cash Transfers) and the rich getting richer because of the economic success while they were left out suffering.
2. **Drugs and crime as campaign issues** – Rody Duterte veered away from the traditional campaign issues of solving poverty and uplifting the economic conditions of Filipinos. He focused on addressing the drug and crime problems of the country which was received positively by Filipinos.
3. **Use of social media in campaign** – The early stages of the campaign of Rody Duterte was marred by lack of funds from potential donors. This was evident with the dearth of political advertisements in traditional media like TV, radio and newspapers which his rivals have been capitalizing on from the start. His campaign staff and group of volunteers turned to Facebook and Youtube to convey his campaign messages and platforms. This effort was so effective that each of his campaign posts became viral.
4. **Citizenship case against Grace Poe** – Some analyst believes that the citizenship case against Grace Poe is one of the factors she relinquished the early lead in most pre-election surveys. She cannot really campaign without being asked about her case. The case was finally resolved 2 months before elections but it was too late since she was now overtaken by Rody Duterte for the lead in the polls.
5. **Televised Presidential debate** – The televised debate was one of the important tools that the voters used in deciding whom to vote for in the May 2016 elections. Awareness of the debate was 54% during the first debate and 74% in the last debate. Pluarility of the respondents polled after the debate mentioned Rody Duterte as the most sincere candidate who will fulfill his campaign promises.

8. Party Leaders and Presidential Candidates:

In the table below, report the leader(s) of each party. Please use the same parties that were used in the CSES Module 4 respondent questionnaire, and label them the same way (A-I). If candidates were endorsed by more than one party, please indicate this.

<b>Party Name</b>	<b>Name of Party Leader</b>	<b>Name of Presidential Candidate, if appropriate</b>

### Questions about the Possibilities of Electoral Alliance

**Definitions:** A joint list refers to one on which candidates of different parties run together. Apparentement refers to a legal agreement between two or more lists to pool their votes for the purposes of an initial seat allocation, with seats initially allocated to the alliance then reallocated to the lists in the alliance.

#### 11. Joint Lists/Candidates

There are multiple types of electoral alliances/coalitions, but we are explicitly interested in those involving joint lists or candidates - i.e. those where parties compete as a unit during the election.

Is this type of electoral coalition legally allowable?

- Yes  
 No

Is this type of electoral coalition used in practice, even if not legally allowable?

- Yes  
 No

If “Yes” was answered to either of the above questions, then please complete the following table for the election at which the Module was administered. Please mention only alliances that received at least 1% of the vote nationally. Add additional lines to the table as necessary.

**Note: In the 2016 election no formal coalition was formed by any of the national parties at the national level voting**

Alliance Name	Participating Parties (please indicate dominant members with an “*”)
Alliance 1:	
Alliance 2:	
Alliance 3:	
Alliance 4:	
Alliance 5:	

12. If joint lists are possible, are they subject to different regulations than single-party lists? For example, higher thresholds, different numbers of candidates that may appear on the list, etc. (please mark all applicable responses)

- Yes, joint party lists must satisfy higher thresholds
- Yes, joint party lists may present different numbers of candidates
- Yes, joint party lists are subject to other regulations that are different from the regulations governing independent parties; please specify: \_\_\_\_\_
- No, joint parties are governed by the same rules as the other parties
- Not applicable; no joint party lists are allowed

13a. Is there apparentement or linking of lists?

- Yes
- No

13b. If apparentement is possible, what lists can participate in such agreements:

- lists of the same party in the same constituency
- lists of the same party from different constituencies
- lists of different parties in the same constituency

**NAP**

14a. Can candidates run with the endorsement of more than one party?

- Yes
- No

14b. If candidates can run with the endorsement of more than one party, is this reflected on the ballot?

- No
- No party endorsements are indicated on the ballot paper
- Yes, candidate's name appears once, together with the names of all supporting parties
- Yes, candidate's name appears as many times as there are different parties endorsing him/her, each time with the name of the endorsing party
- Yes, other; please explain: \_\_\_\_\_

### **Data on Electoral Institutions**

If possible, please supplement this section with copies of the electoral law, voters' handbooks, electoral commission reports, and/or any other relevant materials.

**Questions 15a through 21d must be repeated for each electoral tier (segment) of each directly elected house of the legislature.**

### **Electoral Tier (Segment) and House**

15a. In your answers for questions 15a through 21d, which electoral tier (segment) is being referred to? (Note: Countries with only one tier may skip this question.)

15b. In your answers for questions 15a through 21d, which house is being referred to (lower or upper)? (Note: Countries with only one tier may skip this question.)

### **Questions about Voting**

16a. How many votes do voters cast or can cast? In systems where voters rank order the candidates, if there are 10 candidates (for example), the response to this question should be 10.

16b. Do they vote for candidates (not party lists) or party lists? (Note: Collaborators may select multiple answers, if appropriate.)

(Definition: Party bloc voting is used in multi-member districts where voters cast a single party-centered vote for their party of choice; the party with the most votes wins all of the district seats.)

- Candidates
- Party Lists
- Party Bloc Voting
- Other; please explain: \_\_\_\_\_

16c. How many rounds of voting are there?

**ONE**

16d. If there are lists, are they closed, open, flexible, or is there party bloc voting?

- Closed (order of candidates elected is determined by the party and voters are unable to express preference for a particular candidate)
- Open (voters can indicate their preferred party and their favored candidate within that party)
- Flexible (voters can allocate votes to candidates either within a single party list or across different party lists as they see fit)

17. Are the votes transferable?

(Definition: In systems with preferential voting, a voter can express a list of preferences. E.g., votes can be cast by putting a '1' in the column next to the voter's preferred candidate, a '2' beside their second favorite candidate and so on. Votes are counted according to the first preferences and any candidates who have achieved the predetermined quota are elected. To decide which of the remaining candidates are elected the votes are *transferred* from candidates who have more than the necessary number to achieve the quota and from the candidate with the least number of votes. An example of this is the election in Ireland in 2002.)

- Yes
- No

18. If more than one vote can be cast, can they be cumulated?

(Definition: Cumulative voting refers to systems in which voters are allowed to cast more than one vote for a single candidate.)

- Yes
- No

**NAP**

19. Is voting compulsory?

(Definition: Voting is compulsory if the law states that all those who have the right to vote are obliged to exercise that right.)

- Yes; Strictly Enforced Sanctions
- Yes; Weakly Enforced Sanctions
- Yes; Without Sanction for Violation
- No

20. Please list and describe any other features of voting that should be noted.

### Questions about Converting Votes into Seats

21a. Are there legally mandated thresholds that a party must exceed before it is eligible to receive seats?

- Yes  
 No

**Generally, the votes cannot be converted into seats because voters vote for a particular candidate and for a specific position. Votes can only be converted into seats if one is voting for a Party list representative which is a special provision that is provided for in the Constitution.**

21b. If YES in Question 21a, what is the threshold?
