

Description of Sample and Data Collection

I. Country: Perú

II. Type of Election (e.g. presidential; parliamentary; legislative): Presidential and Congress

III. Date of Election: April 9th, 2000

IV. Organization that Conducted the Survey Field Work: Pontificia Universidad Católica del Perú and Datum International

V. Investigators Responsible for Data Collection

Catalina Romero
Pontificia Universidad Católica del Perú
Apartado 1761 Lima 100 Perú

VI. Study Design (check one)

- Post-Election Study
 Pre-/Post-Election Panel Study

VII. Dates of Interviewing

Date Post-Election Interviewing Began: May 5th, 2000
Date Post-Election Interviewing Ended: May 8th, 2000

VIII. Mode of interview (check one)

- In person, face-to-face
 Telephone
 Mail or self-completion supplement

IX. Sample Design and Sampling Procedures

1. Eligibility Requirements

- a) age: 18 to 65 years old
b) citizenship: Yes No
c) other: with identity document

2. Persons Excluded From the Sample Frame

- a) Were any regions of the country excluded from the sample frame?
Yes No If yes, explain:
- b) Were institutionalized persons excluded from the sample?
Yes No
- c) Were military personnel excluded from the sample?
Yes No
- d) (If telephone interview) Estimated percentage of households without a phone: ___%
- e) (If telephone interview) Were unlisted telephone numbers included in the population sampled?
Yes No
- f) Other persons excluded from the sample frame:
- g) Estimated total (a+b+c+d+e+f) percentage of the eligible population excluded from the sample frame: 7 %

3. Sampling Method (if Face-to-Face)

- a) Describe how the primary sampling units were selected:
The primary sampling unit is the route. These were selected in an aleatory way by the Random Method Route and the selection at the home.

Were the primary sampling units randomly selected?

Yes X No ___

b) Was there a second stage selection? Yes X No ___

c) Describe the method by which the second stage sampling units were selected:

To select the person at home: They were selected by the proportional equivalent system in order to the official demographic information.

Were the secondary sampling units randomly selected?

Yes ___ No X

d) Was a selection table used to select the respondent within the household? Yes ___ No

X

If no, describe:

The proportional equivalent system implies to cover the required quotas –for sex, age and other solicited variables- in the way the field work is going

e) Under what circumstances was a sample line designated non-sample? (Check all that apply)

X All members of household are ineligible

X Housing unit is vacant

X No answer at housing unit

X Other, explain:

f) Were non-sample replacement methods used? Yes ___ No X

If yes describe:

4. Compliance

a) Pre-Study Strategies: Prior to the study was

a letter sent to respondent? Yes ___ No X

payment sent to respondent? Yes ___ No X

a token gift sent to respondent? Yes ___ No X

any other incentives used? Yes ___ No X

If yes, describe:

b) During the Field Period

Maximum number of contacts with the household before declaring it non-sample: 1

Maximum number of contacts with the household before declaring it non-interview: 2

Maximum number of days over which a household was contacted: 1

Did interviewers vary the time of day at which they recontacted the household? Yes X No

c) Refusal Conversion

Was an effort made to persuade respondents who were reluctant to be interviewed?

Yes ___ No X If No (go to Section X)

Were respondents who were reluctant to be interviewed sent a letter persuading them to take part?

Yes ___ No ___

Was payment offered to respondents who were reluctant to take part? Yes ___ No ___

Were respondents who were reluctant to take part turned over to a more experienced interviewer?

Yes ___ No ___

Maximum number of recontacts used to persuade respondent to be interviewed: ___

Other methods used to persuade respondents reluctant to be interviewed to take part:

X. Response Rate (to first wave if a panel study)

a) Total number of sample lines issued: 127

b) Total number of completed interviews: 1119

c) Number of refusals: 946

- d) Number never contacted (no-contact): 644
- e) Other non-response: 851
- f) Number of lines of non-sample:
- g) Response Rate: $(b/(a-f))*100$: 36%

XI. Panel Attrition (Complete only if CSES questionnaire is administered as part of a 2-wave panel study)

XII. Sample Weight

- a) Are the data weighted? Yes ___ No X If yes:
- b) Are the data weighted to compensate for disproportionate probability of selection at the person or household level? Yes ___ No X
- c) Are the data weighted to match known demographic characteristics of the population? Yes ___ No X
- d) Are the data weighted to correct for non-response? Yes ___ No X

XIII. Description of interviewers (age, level of education, and years of experience):

- Young men and women of university level
- 19 to 35 years old
- 60% of the interviewers are permanent employers of our agency
- The permanent employers have been working for more than 2 years

Description of interviewer training:

-
-
-

XIV. Comparison of Sample to Population

Characteristic	Population Estimates INEI	Sample Estimates	
		Unweighted	Weighted
Age			
18-25	29%	28.3%	
26-45	28%	27.6%	
46-65	20%	20.7%	
66 and more	23%	23.4%	
Education			
None	No data available	0.5	
Incomplete primary	No data available	4.0	
Primary completed	No data available	7.2	
Secondary completed	No data available	8.1	
Instituto incompleto	No data available	27.9	
Instituto completo	No data available	2.9	
Incomplete university	No data available	14.5	
University completed	No data available	7.4	
Masters/PhD	No data available	26.1	
Gender			
Male	49.1	49.8	
Female	50.9	50.2	

XV. Languages used in the interviews. Spanish
