

EXTRACTS FROM CODEBOOK: Variables relevant to CSES dataset

Note:

Some variables notes with RS instead of R have been surveyed in a written drop off questionnaire, to be completed by the respondents after the interview and sent back to the institution. Due to a lower response on this drop off questionnaire, these variables contain an additional number of missing values. In the original dataset these unit non response was coded as ., whereas the item non response was coded 8 or 88. In the recoded CSES dataset, all these missings have been coded 88.

R0_8A DATE OF INTERVIEW - DAY

[completed by interviewer; days numbered 1 through 31]

R31 **RESPONDENT ON LEFT-RIGHT SCALE**
q31

In politics, people sometimes talk about "left" and "right". Card No. 11 presents this situation. "0" stands for someone whose views are entirely to the "left"; "10" for someone whose views are entirely to the "right". Of course, there are intermediary positions to the degree that one's views are more or less to the "left" or to the "right". When you think about your own ideas on this, where would you place yourself on this scale?

0.	Left	42	2.0
1.		28	1.3
2.		89	4.2
3.		186	8.7
4.		179	8.4
5.		732	34.2
6.		201	9.3
7.		220	10.3
8.		152	7.1
9.		29	1.4
10.	Right	59	2.8
77.	Don't know	220	10.3
		<hr/>	<hr/>
88.	Frequency Missing	2137	100.0
		42	

R31_1
q31.1

AGALEV ON THE LEFT-RIGHT SCALE

Political parties are also said to be to the "left" or to the "right". Could you place these party cards on Card No 9 on the place that, in your opinion, corresponds with the degree to which the party is to the "left" or to the "right". If two or more parties are equally to the "left" or to the "right", then put them on the same place. If there are parties about which you do not know how much to the "left" or to the "right" they are, just put them aside.

0.	Left	130	6.0
