

**Comparative Study of Electoral Systems (CSES)  
Module 3: Sample Design and Data Collection Report**

June 05, 2006

Country: Czech Republic  
Date of Election: 28<sup>th</sup> and 29<sup>th</sup> May 2010

Prepared by: Lukáš Linek  
Date of Preparation: October 2012

**NOTES TO COLLABORATORS:**

- Where brackets [ ] appear, answer by placing an “X” within the appropriate bracket or brackets.
- If more space is needed to answer any question, please lengthen the document as necessary.

**Collaborator(s):**

Collaborators are the contact persons for election studies that appear in the CSES dataset - they are not necessarily the parties who collected the data. These collaborators and their contact information will be listed on the CSES website.

Name: Lukáš Linek Title: PhD. Organization: Institute of Sociology, Czech Academy of Sciences Address: Jilská 1 Prague 1 110 00 Czech Republic Telephone: Fax: E-Mail: lukas.linek@soc.cas.cz Website: <a href="http://www.soc.cas.cz/people/cz/5/47/PhDr.-Lukas-Linek-Ph.D..html">http://www.soc.cas.cz/people/cz/5/47/PhDr.-Lukas-Linek-Ph.D..html</a>	Name: Title: Organization:  Address:   Telephone: Fax: E-Mail: Website:

--	--

**Data Collection Organization:**

Organization that conducted the survey field work/data collection:

Organization: CVVM (Center for public opinion research) at the Institute of Sociology,  
Czech Academy of Sciences  
Address: Jilská 1, Prague 1, 110 00, Czech Republic  
  
Telephone: +420 210 310 591  
Fax:  
E-Mail: [cvvm@soc.cas.cz](mailto:cvvm@soc.cas.cz)  
Website: <http://www.cvvm.cas.cz/>

**Funding Organization(s):**

Organization(s) that funded the data collection:

Organization: Institute of Sociology, Czech Academy of Sciences  
Address: Jilská 1, Prague 1, 110 00, Czech Republic  
  
Telephone: +420 221 183 111  
Fax: +420 222 220 143  
E-Mail: [socmail@soc.cas.cz](mailto:socmail@soc.cas.cz)  
Website: <http://www.cas.cz/>

Organization: Department of Political Science and European Studies, Faculty of Arts,  
University of Olomouc  
Address: Křížkovského 12, Olomouc, 77180, Czech Republic  
  
Telephone: +420 585 633 302  
Fax: +420 585 633 302  
E-Mail: [politologie@upol.cz](mailto:politologie@upol.cz)  
Website: <http://kpes.upol.cz/index.php>

**Archiving Organization**

If appropriate, please indicate the primary location where the full, original election study dataset (not just the CSES portion) will be archived:

Organization: Data Archive, Institute of Sociology, Czech Academy of Sciences  
Address: Jilská 1, Prague 1, 110 00, Czech Republic

Telephone: +420 221 183 231

Fax: +420 222 220 143

E-Mail: [archiv@soc.cas.cz](mailto:archiv@soc.cas.cz)

Website: <http://archiv.soc.cas.cz/>

Please indicate the date when the study is expected to be available at this archive: already is

### **Study Design**

1. Timing of the study that the CSES Module was included in:

Post-Election Study

Pre-Election/Post-Election Panel Study

2a. Date Post-Election Interviewing Began:

31<sup>st</sup> May 2010

2b. Date Post-Election Interviewing Ended:

18th June 2010

3. Mode of (post-election) interview:

In person, face-to-face

Telephone

Mail or self-completion supplement

Internet

4a. Was the survey part of a panel study?

Yes

No

4b. If the survey was part of a panel study, please describe the design of the panel study, including the date at which interviewing for each prior wave began and ended:

### **Translation**

Please provide copies of questionnaires in all languages used as part of the election study deposit. For questionnaires in a language other than English, please also provide a version of each translated back into English. Note: Questions are based on those developed for the ISSP.

5. Was the questionnaire translated?

- Yes, translated by member(s) of research team
- Yes, by translation bureau
- Yes, by specially trained translator(s)
- No, not translated (Module 3 was already implemented in 2006)

6. Please list all languages used for the fielded module: Czech

7a. If the questionnaire was translated, was the translated questionnaire assessed/checked or evaluated?

- Yes, by group discussion
- Yes, an expert checked it
- Yes, by back translation
- Other; please specify: \_\_\_\_\_
- No
- Not applicable

7b. If the questionnaire was translated, was the questionnaire pre-tested?

- Yes
- No
- Not applicable

7c. If the questionnaire was translated, were there any questions which caused problems when translating?

- Yes
- No
- Not applicable

7d. If the questionnaire was translated, please provide a list of all questions which caused problems when translating. For each question listed, describe what problems were encountered and how they were solved:

### **Sample Design and Sampling Procedures**

8. Please describe the population that your sample is meant to be representative of: Residents of the Czech Republic. Interviews were conducted face-to-face at homes or houses of the respondents. This could have led to unintentional exclusion of homeless people.

### **Eligibility Requirements**

9a. Must a person be a certain age to be interviewed?

Yes

No

If yes, what ages could be interviewed? 18+

9b. Must a person be a citizen to be interviewed?

Yes

No

9c. Must a person be registered to vote to be interviewed?

Yes

No

9d. Please list any other interviewing requirements or filters used: resident on the Czech Republic

## Sample Frame

10a. Were any regions of the country excluded from the sample frame?

Yes

No

If yes, what percent of the total eligible population did this exclude from the sample frame? \_\_\_\_\_ %

If yes, please explain:

10b. Were institutionalized persons excluded from the sample?

Yes

No

If yes, what percent of the total eligible population did this exclude from the sample frame? \_\_\_\_\_ %

If yes, please explain:

10c. Were military personnel excluded from the sample?

Yes

No

If yes, what percent of the total eligible population did this exclude from the sample frame? \_\_\_\_\_ %

If yes, please explain:

10d. If interviews were conducted by telephone, what is the estimated percentage of households without a phone? \_\_\_\_\_ %

Please explain:

10e. If interviews were conducted by telephone, were unlisted telephone numbers included in the population sampled?

Yes

No

If no, what percent of the total eligible population did this exclude from the sample frame? \_\_\_\_\_ %

10f. Were other persons excluded from the sample frame?

Yes

No

If yes, what percent of the total eligible population did this exclude from the sample frame? At maximum 1 %

If yes, please explain: People who doesn't live in a house or an apartment, could not be selected.

10g. Please estimate the total percentage of the eligible population excluded from the sample frame: At maximum 1 %

### Sample Selection Procedures

11. Please describe, in your own words, how the sample for the study was selected. If the survey is part of a panel study, please also describe the original sample, from the beginning of the study.

Quota sampling was used. Quotas were designed for each region (14 regions) based on age, sex and education.

12a. What were the primary sampling units?

No

12b. How were the primary sampling units selected?

12c. Were the primary sampling units randomly selected?

Yes

No

Please explain how the units were randomly selected. If the units were not randomly selected, please provide a justification for why the units were not randomly selected.

13. Were there further stages of selection?

Yes

No

13a. If there were further stages of selection, what were the sampling units at each of the additional stages?

13b. If there were further stages of selection, how were the sampling units selected at each of the additional stages?

13c. If there were further stages of selection, were units at each of these stages randomly selected?

Yes

No

Please explain how the units were randomly selected. If the units were not randomly selected, please provide a justification for why the units were not randomly selected.

14a. How were individual respondents identified and selected in the final stage?  
Interviewees picked people in the county area based on fulfilling the quota.

14b. Could more than one respondent be interviewed from a single household?

Yes

No

If yes, please explain:

15. Did the sample design include clustering at any stage?

Yes

No

If yes, please describe:

16. Did the sample design include stratification?

Definition: Stratification involves the division of the population of interest according to certain characteristics (for instance: geographic, political, or demographic). Random selection then occurs within each of the groups that result.

Yes

No

If yes, please describe (please include the list of characteristics used for stratification):

17. Was quota sampling used at any stage of selection?

Yes

No

If yes, please describe:

Quota sampling was used. Quotas were designed for each region (14 regions) based on age, sex and education.

18. Was substitution of individuals permitted at any stage of the selection process or during fieldwork?

Yes

No

If yes, please describe: If a person refused to take part in interview, another person suitable to the quota was selected.

19. Under what circumstances was a household designated non-sample? Please check all that apply:

Non-residential sample point

All members of household are ineligible

Housing unit is vacant

No answer at housing unit after \_\_\_\_\_ callbacks

Other (Please explain):

20. Were non-sample replacement methods used?

Yes

No

Please describe: If a person refused to take part in interview, another person suitable to the quota was selected.

21a. For surveys conducted by telephone, was the sample a random digit dial (RDD) sample?

Yes

No

21b. For surveys conducted by telephone, was the sample a listed sample?

Yes

No

21c. For surveys conducted by telephone, was the sample a dual frame sample?

Yes

No

If yes, what % list frame \_\_\_\_\_ and what % RDD \_\_\_\_\_

22. For surveys conducted by mail, was the sample a listed sample?

Yes

No

Please describe:

23. For surveys conducted on the Internet, did any respondents self-select into the survey?

Yes

No

Please explain:

## Incentives

24a. Prior to the study, was a letter sent to the respondent?

Yes

No

(If yes, please provide a copy of the letter.)

24b. Prior to the study, was a payment sent to the respondent?

Yes

No

If yes, please describe (including amount of payment):

24c. Prior to the study, was a token gift sent to the respondent?

Yes

No

If yes, please describe:

24d. Did respondent receive an additional payment after their participation? (Do not include any payment made prior to the study.)

Yes

No

If yes, please describe (including amount of payment):

24e. Were any other incentives used?

Yes

No

If yes, please describe:

## Interviewers

25. Please describe the interviewers (e.g., age, level of education, years of experience):

There are around 900 interviewers in the CVVM polling agency all around the country. They are both men and women almost in the same ratio. Age varies in between 18 to 65 years with the average age 38 years. Education structure of interviewers is 80 % secondary school and 20 % university level. The experience with CVVM polling agency varies between 1 to 21 years. Average interviewer works for CVVM 12 years.

26. Please provide a description of interviewer training:

Before a person becomes an interviewer of CVVM s/he has to go through training where principles of interviewing and the administration around interviewing (filling the questionnaires, correspondence with public opinion headquarters etc.) are learned. After the training, the person goes through test interviews. Training of interviewers after becoming an interviewer of CVVM is organised every 5 years. There is a training letter for interviewers added to every questionnaire/survey and almost non-stop phone and e-mail consultations.

## Contacts

27a. What was the average number of contact attempts made per household, for the entire sample?

27b. For households where contact was made, what was the average number of contact attempts prior to first contact?

27c. During the field period, how many contacts were made with the household before declaring it a **non-sample**?

28d. During the field period, how many contacts were made with the household before declaring it a **non-interview**?

28e. During the field period, what were the maximum number of days over which a household was contacted?

28f. During the field period, did interviewers vary the time of day at which they re-contacted the household?

Yes

No

If yes, please describe:

### Refusal Conversion

29a. Were efforts made to persuade respondents who were reluctant to be interviewed?

Yes

No

Please describe:

29b. Were respondents who were reluctant to be interviewed sent a letter persuading them to take part?

Yes

No

(If yes, please provide a copy of the letter or letters.)

If yes, please describe:

29c. Was payment offered to respondents who were reluctant to take part?

Yes

No

If yes, how much?

29d. Were respondents who were reluctant to take part turned over to a more experienced interviewer?

Yes

No

29e. What was the maximum number of re-contacts used to persuade respondents to be interviewed? 0

29f. Were any other methods used to persuade respondents reluctant to be interviewed to take part?

Yes

No

If yes, please describe:

### **Interview/Survey Verification**

Definition: Interview/survey verification is the process of verifying that an interview was conducted and that the survey was administered to the correct respondent, for quality control purposes.

30. Was interview/survey verification used?

Yes

No

If yes, please describe the method(s) used: Letters were sent to 10 percent of respondents' addresses with the request to send it back and answer couple of questions concerning the interview (who and when did it).

If yes, please indicate the percent of completed surveys that were verified: 80 %

### Response Rate

31. What was the response rate of the survey that the CSES Module appeared in? Please show your calculations. (If the CSES Module appeared in a panel study, please report the response rate of the first wave of the study, even if the CSES Module did not appear in that wave.)

32. Please provide the following statistics for the survey that the CSES Module appeared in. Note: If the CSES Module appeared in a panel study, please report the statistics for the first wave of the study, even if the CSES Module did not appear in that wave.)

- A. Total number of households in sample: \_\_\_\_\_
- B. Number of valid households: \_\_\_\_\_
- C. Number of invalid (non-sample) households: \_\_\_\_\_
- D. Number of households of unknown validity: \_\_\_\_\_
- E. Number of completed interviews: \_\_\_\_\_
- F. Number of partial interviews: \_\_\_\_\_
- G. Number of refusals and break-offs: \_\_\_\_\_
- H. Number non-contact (never contacted): \_\_\_\_\_
- I. Other non-response: \_\_\_\_\_

The sum of B+C+D should equal the value of A. If not, please describe why:

If statistic D (number of households of unknown validity) has a value greater than zero (0), please estimate the proportion of households of unknown validity that are valid:

The sum of E+F+G+H+I should equal the value of B. If not, please describe why:

If statistic I has a value greater than zero (0), please describe what cases fall into this category:

33. If the CSES Module appeared in a panel study, how many waves were conducted prior to the wave that included the CSES Module?

34. If the CSES Module appeared in a panel study, what was the total panel attrition between the first wave of the study and the wave that included the CSES Module? Please show your calculations.

35. If the CSES Module appeared in a panel study, please provide the number of completed interviews for the wave that included the CSES Module:

36. If the CSES Module appeared in a panel study, please provide the following statistics for panel attrition by age and education. In each cell, indicate the percent of all completed interviews in each category for the indicated wave.

<b>Age</b>	First wave of study	Wave that included CSES
18-25	%	%
26-40	%	%
41-64	%	%
65 and over	%	%

<b>Education</b>	First wave of study	Wave that included CSES
None	%	%
Incomplete primary	%	%
Primary completed	%	%
Incomplete secondary	%	%
Secondary completed	%	%
Post-Secondary Trade/Vocational	%	&
University incomplete	%	%
University degree	%	%

### Post-Survey Adjustment Weights

37. Are weights necessary to make the sample representative of the population being studied?

Yes

No

If yes, please explain:

38. Are weights included in the data file?

Yes

No

39. If weights are included in the data file, please describe in detail how the weights were constructed:

40a. If weights are included in the data file, are the weights designed to compensate for disproportionate probability of selection?

Yes

No

If yes, please describe:

40b. If weights are included in the data file, are the weights designed to match known demographic characteristics of the population?

Yes

No

If yes, please describe:

40c. If weights are included in the data file, are the weights designed to correct for non-response?

Yes

No

If yes, please describe:

40d. If weights are included in the data file, are the weights designed to correct to the official election results?

Yes

No

If yes, please describe:

41. Comparison of Completed Interviews to Population (please provide as percentages of the total):

Characteristic	Population Estimates	Completed Interviews	
		Unweighted Distribution	Weighted Distribution
<u>Age</u>			
18-30	24.8 %	24.6 %	%
31-45	25.4 %	26.0 %	%
46-60	27.1 %	26.5 %	%
61 and over	22.7 %	22.9 %	%
<u>Education</u>			
None	%	%	%
Incomplete Primary	%	%	%
Primary Completed	20.1 %	18.7 %	%
Incomplete Secondary	40.4 %	39.2 %	%
Secondary Completed	26.4 %	28.4 %	%
Post-Secondary Trade/ Vocational	%	%	%
University Incomplete	%	%	%
University Degree	13.0 %	13.7 %	%
<u>Gender</u>			
Male	48.1 %	48.6 %	%
Female	51.9 %	51.4 %	%

42. Please indicate the source of the population estimates in the prior question. English language sources are especially helpful. Include website links or contact information if applicable.  
 Czech statistical Office; [www.czso.cz](http://www.czso.cz)
