6c. Populist classification of parties: As Module 5 focuses in part on populism, please indicate the degree to which each of the parties (in the expert judgment of the CSES Collaborator) can be characterized as a populist party? Please use the same parties used in the CSES Module 5 respondent questionnaire and label them the same way (A-I). The definition of populism advanced by the Module 5 theme committee is below:

*DEFINITION: Populism can be defined as a thin-centred ideology that pits a virtuous and homogeneous people against a set of elites and dangerous ‘others’ who are depicted as depriving “the people” of their rights, values, prosperity, identity, and voice. The emphasis on anti-elite/ anti-establishment rhetoric and the contrast between the “pure people” and the “corrupt elite” are thus indications of the degree to which a party is populist. Populist parties can be found across the left-right ideological spectrum. On a scale of 0 to 10, where 0 is “not at all populist” and 10 is “very populist”, where would you place each of the parties in your country?*

Party Name	Not at all populist						Very populist				
	0	1	2	3	4	5	6	7	8	9	10
A. Saenuri Party(New World Party)		x									
B. The Minjoo party of Korea				x

6c2: How many country experts/national collaborators have assisted in the classification of parties on the above scale? 5

6c3: We encourage collaborators to provide any further specific or relevant information (if applicable) regarding the above classifications which might help users of the data understand them to a greater extent. This information will be included in the CSES codebook. Please fill in below.

*Definitions: A joint list refers to one on which candidates of different parties run together. Apparentement refers to a legal agreement between two or more lists to pool their votes for the purposes of an initial seat allocation, with seats initially allocated to the alliance then reallocated to the lists in the alliance.*

10c. If “Yes” was answered to either of the above questions, then please complete the following table for the election at which the Module was administered. Please mention only alliances that received at least 1% of the vote nationally. Add additional lines to the table as necessary.

Alliance Name

Participating Parties

**G) ELECTORAL INSTITUTIONS**

If possible, please supplement this section with copies of the electoral law, voters' handbooks, electoral commission reports, and/or any other relevant materials.

**Please note: Questions 15a through 21d must be repeated for each electoral tier (segment) of each directly elected house of the legislature.**

*Electoral Tier (Segment) and House*

14a. In your answers for questions 15a through 21d, which electoral tier (segment) is being referred to?  
(Note: Countries with only one tier may skip this question.)

N/A

14b. In your answers for questions 15a through 21d, which house is being referred to (lower or upper)?  
(Note: Countries with only one tier may skip this question.)

N/A

*Questions about Voting*

15a. How many votes do voters cast or can cast? In systems where voters rank order the candidates, if there are 10 candidates (for example), the response to this question should be 10.

Voters cast 2 votes. One vote for district representatives, and the other vote for proportional representatives.

15b. Do they vote for candidates (not party lists) or party lists? (Note: Collaborators may select multiple answers, if appropriate.)

*(Definition: Party bloc voting is used in multi-member districts where voters cast a single party-centered vote for their party of choice; the party with the most votes wins all of the district seats.)*

- Candidates
- Party Lists
- Party Bloc Voting
- Other; please explain: \_\_\_\_\_

15c. How many rounds of voting are there?  
one

15d. If there are lists, are they closed, open, flexible, or is there party bloc voting?

- Closed (order of candidates elected is determined by the party and voters are unable to express preference for a particular candidate)
- Open (voters can indicate their preferred party and their favored candidate within that party)
- Flexible (voters can allocate votes to candidates either within a single party list or across different party lists as they see fit)

16. Are the votes transferable?

*(Definition: In systems with preferential voting, a voter can express a list of preferences. E.g., votes can be cast by putting a '1' in the column next to the voter's preferred candidate, a '2' beside their second favorite candidate and so on. Votes are counted according to the first preferences and any candidates who have achieved the predetermined quota are elected. To decide which of the remaining candidates are elected the votes are transferred from candidates who have more than the necessary number to achieve the quota and from the candidate with the least number of votes. An example of this is the election in Ireland in 2002.)*

Yes

No

17. If more than one vote can be cast, can they be cumulated?

*(Definition: Cumulative voting refers to systems in which voters are allowed to cast more than one vote for a single candidate.)*

Yes

No

18. Is voting compulsory?

*(Definition: Voting is compulsory if the law states that all those who have the right to vote are obliged to exercise that right.)*

Yes; Strictly Enforced Sanctions

Yes; Weakly Enforced Sanctions

Yes; Without Sanction for Violation

No

19. Please list and describe any other features of voting that should be noted.

There is a mixed member electoral system in South Korean General Election. This system generally follows Japanese style. The elections are divided into two types: first one is for district representatives (simple plurality) and the other one is for proportional representatives (party list). Although mixed, a simple plurality system predominately affects the outcome (the number of each party's seat) of elections because the proportion of seats selected by this system is heavily high than by proportional representation system. Therefore, it would appear that the outcome is likely to be skewed by the number of district representatives.

Questions about Converting Votes into Seats

20a. Are there legally mandated thresholds that a party must exceed before it is eligible to receive seats?

Yes

No

20b. If YES in Question 20a, what is the threshold?

3% of the party votes or 5 seats of district seats at least

20c. If YES in Question 20a, what is the unit for the threshold mentioned in Question 20b?

Percent of total votes

Percent of valid votes

Percent of the total electorate

Other; please explain: \_\_\_\_\_

20d. If YES in Question 20a, please specify to what House/ Electoral Tier (Segment) the threshold(s) apply.

**Please repeat questions 15a through 21d for each electoral tier (segment) of each directly elected house of the legislature. Countries with only one tier should proceed to Question 22.**
