Electoral Tiers (Segments)

DEFINITION: CSES takes a generalized approach to classifying electoral tiers. Many electoral systems (both plurality and proportional operate a single-tier system where all elected representatives within the polity are elected in the same way (e.g., of systems that accord to this general principle are the United Kingdom, Canada, Ireland, or the Netherlands). There are conventionally two tiers of representatives in mixed systems (e.g., of systems like this include Germany and New Zealand, which elect representatives in two distinct ways – one set elected via constituency mandates and the other through list mandates). Even purely proportional systems can have multiple tiers. These can be delineated in various ways. For example, representatives elected through different list procedures, like in South Africa, where representatives can be elected via regional and national lists. Alternatively, the tiers may delineate compensatory seats, distributed to achieve a proportional outcome at the national level. For example, in polities like Norway and Sweden, the compensatory seat allocations are conventionally considered separate tiers even though electors don't cast separate ballots for these segments.

15a. For lower house elections, how many electoral tiers operate?

One tier

Two tiers

Three tiers

Other; please explain: _____

15b. For lower house elections, if more than one electoral tier operates in the polity (see answer to q15a above), please specify the different tiers, and the maximum number of seats awarded (if applicable) at each tier?

Tier name	Maximum number of seats awarded

15c. For upper house elections, how many electoral tiers operate?

INSTRUCTIONS TO COLLABORATOR(S): Only required to answer this question if election under study is an upper house election is or has an upper house election taking place simultaneously with a lower house and/or presidential election.

- Two tiers
- Three tiers
- Other; please explain: No upper house elections

15d. For upper house elections, if more than one electoral tier operates in the polity (see answer to q15c), please specify the different tiers, and the maximum number of seats awarded (if applicable) at each tier?

INSTRUCTIONS TO COLLABORATOR(S): Only required to answer this question if election under study is an upper house election is or has an upper house election taking place simultaneously with a lower house and/or presidential election.

Tier	Maximum number of seats awarded

Voting procedures

INSTRUCTIONS TO COLLABORATOR(S): The voting procedure questions are asked of each electoral tier in the system (see answer to Question 15 above). Hence questions Q16a-Q20d and Q21a-25d are identical but the answers should relate to the procedures operated at different tiers.

Questions Q16a-Q20d should be completed by polities with one electoral tier only or by polities who have multiple electoral tiers with the answers to questions Q16a-Q20d referring to tier 1 in that polities' multi-tier system.

Questions Q21a-Q25d need only be completed by polities who operate multiple election tiers with the answers to questions Q21a-Q25d referring to tier 2 in that polities' multi-tier system. For those few polities that have more than two tiers (e.g., Greece), we request that collaborators in answering Q21a-Q25d specify the answers for both tiers 2 and 3, making clear which answers refer to which tier.

For polities who have only one tier or tier 1 of multi-tier polities

INSTRUCTIONS TO COLLABORATORS: Questions Q16a-Q20d should be completed by polities with one electoral tier only or by polities who have multiple electoral tiers with the answers to questions Q16a-Q20d referring to tier 1 in that polities' multi-tier system.
