The assessment draws on multiple sources, including individual classifications of parties by country experts, collective deliberations among experts, analysis of electoral programmes, media coverage of the 2024 electoral campaigns, interviews with political leaders, and existing party placements in comparative research projects.

6b. If you have asked respondents to rank political parties on an alternative dimension other than the left-right dimension, please also provide your own rankings of the parties on this dimension. Please use the same parties that were used in the CSES Module 6 respondent questionnaire.

INSTRUCTIONS TO COLLABORATOR(S): If not asked, please move to question 6c.

If asked, up to 9 parties can be classified for each polity. Please provide scores for the first nine parties achieving 1% of the national popular vote. Please use the same parties used in the CSES Module 6 respondent questionnaire and label them the same way (A-I).

DEFINITION: Populism can be defined as a thin-centered ideology that pits a virtuous and homogeneous people against a set of elites and dangerous ‘others’ which are depicted as depriving “the people” of their rights, values, prosperity, identity, and voice. The emphasis on anti-elite/ anti-establishment rhetoric and the contrast between the “pure people” and the “corrupt elite” are thus indications of the degree to which a party is populist. Populist parties can be found across the left-right ideological spectrum. On a scale of 0 to 10, where 0 is “not at all populist” and 10 is “very populist”, where would you place each of the parties in your country?.

INSTRUCTIONS TO COLLABORATOR(S): up to 9 parties can be classified for each polity. Please provide scores for the first nine parties achieving 1% of the national popular vote. Regarding labeling the parties alphabetically, Parties A-F are the six most popular parties/coalitions, ordered in descending order of their share of the popular vote in the parliamentary (or Presidential) election. 14b. If the answer to q14a was YES, please state below what changes occurred?

INSTRUCTIONS TO COLLABORATOR(S): In explaining, please attach any documents/sources that may help explain the change(s).

Electoral Tiers (Segments)

DEFINITION: CSES takes a generalized approach to classifying electoral tiers. Many electoral systems (both plurality and proportional operate a single-tier system where all elected representatives within the polity are elected in the same way (e.g., of systems that accord to this general principle are the United Kingdom, Canada, Ireland, or the Netherlands). There are conventionally two tiers of representatives in mixed systems (e.g., of systems like this include Germany and New Zealand, which elect representatives in two distinct ways – one set elected via constituency mandates and the other through list mandates). Even purely proportional systems can have multiple tiers. These can be delineated in various ways. For example, representatives elected through different list procedures, like in South Africa, where representatives can be elected via regional and national lists. Alternatively, the tiers may delineate compensatory seats, distributed to achieve a proportional outcome at the national level. For example, in polities like Norway and Sweden, the compensatory seat allocations are conventionally considered separate tiers even though electors don't cast separate ballots for these segments.

15a. For lower house elections, how many electoral tiers operate?

One tier

Two tiers

Three tiers

Other; please explain: _____

15b. For lower house elections, if more than one electoral tier operates in the polity (see answer to q15a above), please specify the different tiers, and the maximum number of seats awarded (if applicable) at each tier?

Tier name	Maximum number of seats awarded

15c. For upper house elections, how many electoral tiers operate?

INSTRUCTIONS TO COLLABORATOR(S): Only required to answer this question if the election under study is an upper house election or has an upper house election taking place simultaneously with a lower house and/or presidential election.

INSTRUCTIONS TO COLLABORATOR(S): Only required to answer this question if the election under study is an upper house election or has an upper house election taking place simultaneously with a lower house and/or presidential election.

Voting procedures

INSTRUCTIONS TO COLLABORATOR(S): The voting procedure questions are asked of each electoral tier in the system (see the answer to Question 15 above). Hence, questions Q16a-Q20d and Q21a-25d are identical, but the answers should relate to the procedures operated at different tiers.

Questions Q16a-Q20d should be completed by polities with one electoral tier only or by polities with multiple electoral tiers, with the answers to questions Q16a-Q20d referring to tier 1 in that polities' multi-tier system.

Questions Q21a-Q25d need only be completed by polities that operate multiple election tiers, with the answers to questions Q21a-Q25d referring to tier 2 in that polities' multi-tier system. For those few polities with more than two tiers (e.g., Greece), we request that collaborators in answering Q21a-Q25d specify the answers for both tiers 2 and 3, clarifying which answers refer to tier 2 and tier 3, respectively.

For polities who have only one tier or tier 1 for multi-tier polities

INSTRUCTIONS TO COLLABORATORS: Questions Q16a-Q20d should be completed by polities with one electoral tier only or by polities who have multiple electoral tiers with the answers to questions Q16a-Q20d referring to tier 1 in that polities' multi-tier system.

For polities that operate only one tier, the Collaborator can skip questions Q21a-Q25d and go straight to Q26. Questions Q21a-Q25d (below) need only be completed by polities who operate MULTIPLE election tiers, with the answers to questions Q21a-Q25d referring to tier 2 in that polities' multi-tier system.
