6c. Populist classification of parties: Please indicate the degree to which each of the parties (in the expert judgment of the CSES Collaborator) can be characterized as a populist party? Please use the same parties used in the CSES Module 6 respondent questionnaire and label them the same way (A-I).

*DEFINITION: Populism can be defined as a thin-centered ideology that pits a virtuous and homogeneous people against a set of elites and dangerous ‘others’ which are depicted as depriving “the people” of their rights, values, prosperity, identity, and voice. The emphasis on anti-elite/ anti-establishment rhetoric and the contrast between the “pure people” and the “corrupt elite” are thus indications of the degree to which a party is populist. Populist parties can be found across the left-right ideological spectrum. ### **Electoral Tiers (Segments)**

*DEFINITION: CSES takes a generalized approach to classifying electoral tiers. Many electoral systems (both plurality and proportional operate a single-tier system where all elected representatives within the polity are elected in the same way (e.g., of systems that accord to this general principle are the United Kingdom, Canada, Ireland, or the Netherlands). There are conventionally two tiers of representatives in mixed systems (e.g., of systems like this include Germany and New Zealand, which elect representatives in two distinct ways – one set elected via constituency mandates and the other through list mandates). Even purely proportional systems can have multiple tiers. These can be delineated in various ways. For example, representatives elected through different list procedures, like in South Africa, where representatives can be elected via regional and national lists. Alternatively, the tiers may delineate compensatory seats, distributed to achieve a proportional outcome at the national level. For example, in polities like Norway and Sweden, the compensatory seat allocations are conventionally considered separate tiers even though electors don't cast separate ballots for these segments.*

**Country has only one tier. Slovakia is a single district, nationwide electoral constituency.**

15a. For lower house elections, how many electoral tiers operate?

One tier

Two tiers

Three tiers

Other; please explain: \_\_\_\_\_

15b. For lower house elections, if more than one electoral tier operates in the polity (see answer to q15a above), please specify the different tiers, and the maximum number of seats awarded (if applicable) at each tier?

Slovakia	150

15c. For upper house elections, how many electoral tiers operate?

*INSTRUCTIONS TO COLLABORATOR(S): Only required to answer this question if the election under study is an upper house election or has an upper house election taking place simultaneously with a lower house and/or presidential election.*

*INSTRUCTIONS TO COLLABORATOR(S): Only required to answer this question if the election under study is an upper house election or has an upper house election taking place simultaneously with a lower house and/or presidential election.*

Tier	Maximum number of seats awarded

### **Voting procedures**

*INSTRUCTIONS TO COLLABORATOR(S): The voting procedure questions are asked of each electoral tier in the system (see the answer to Question 15 above). Hence, questions Q16a-Q20d and Q21a-25d are identical, but the answers should relate to the procedures operated at different tiers.*

*Questions Q16a-Q20d should be completed by polities with one electoral tier only or by polities with multiple electoral tiers, with the answers to questions Q16a-Q20d referring to tier 1 in that polities' multi-tier system.*

*Questions Q21a-Q25d need only be completed by polities that operate multiple election tiers, with the answers to questions Q21a-Q25d referring to tier 2 in that polities' multi-tier system. For those few polities with more than two tiers (e.g., Greece), we request that collaborators in answering Q21a-Q25d specify the answers for both tiers 2 and 3, clarifying which answers refer to tier 2 and tier 3, respectively.*

**For polities who have only one tier or tier 1 for multi-tier polities**

*INSTRUCTIONS TO COLLABORATORS: Questions Q16a-Q20d should be completed by polities with one electoral tier only or by polities who have multiple electoral tiers with the answers to questions Q16a-Q20d referring to tier 1 in that polities' multi-tier system.*

Votes are counted according to the first preferences and any candidates who have achieved the predetermined quota are elected. To decide which of the remaining candidates are elected the votes are transferred from candidates who have more than the necessary number to achieve the quota and from the candidate with the least number of votes. An example of this is the election in Ireland in 2002.)*
